Detailed Action

The objection to claim 8 under 37 CFR 1.75 ©, the 112, second paragraph rejections of claims 20, 25-28, the 102 (b) rejections of claims 25-28, and the 103 (a) rejections of claims 1-3, 8, 10, 13, 14, 15-21 are withdrawn in light of applicant's amendment at paper no. 8/A.

(old rejections)

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-18, 20, 25-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. In claims 16-18, line 1, the term "Oxone" is indefinite because it is a trade name.

(new rejection)

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim(s) 25-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. In claims 25-28, it is not clear if a compound or composition is being claimed, since omerprazole, Lansoprazole, Pantoprazole, and Rabeprazole are being claimed in each of these

Art Unit: 1625

claims individually having less than about 4.5% sulfone. A compound can not consist of more than one compound.

B. In claims 51-52, line 1, the term "Oxone" is indefinite because it is a trade name. Claims 23-24 are objected to because they are based on a rejected claim. Claims 1-15, 19, 21, 24, 29-60 are allowable.

Response to Applicant's Remarks

The applicant asserts that the use of the trade name OXONE is permissible in claims 16-18, 20 and 35-38 because the source company for "OXONE" is fully disclosed in the original application, and the application clearly sets forth its identity. However, Trademarks are only permissible in patent applications if: a) Their meanings are established by an accompanying definition which is sufficiently precise and definite to be made a part of a claim, or In this country, their meanings are well-known and satisfactorily defined in the literature. However, in this case neither condition is met.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1625

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
